Sarmaya Capital Real Estate Fund Three

Live Better at Tara Hill Investment Summary

Sarmaya Capital Real Estate Fund III Limited Partnership (the “Canadian Fund”) and Sarmaya Capital Real Estate Fund III (US), LP (the “US Fund”, and together with the Canadian Fund, the “Fund”) intend to present select investors with information regarding an opportunity to invest in a unique asset in Atlanta, Georgia, Tara Hill Apartments. The offering consists of Class A Units in the Canadian Fund, offered to qualified investors resident in the Provinces of British Columbia, Alberta, Ontario and Quebec, and Class A Units in the US Fund, offered to qualified investors resident in the United States. The business of the Fund will be to acquire and operate Tara Hill Apartments, a multi-family residential apartment complex portfolio in Atlanta, Georgia. The Fund will invest in SCC Tara Hill Holdings, LP (the “Property Partnership”), which has a contract to purchase Tara Hill Apartments, subject to customary conditions of closing. Sarmaya Capital Corp. (“Sarmaya”)has been retained to act as asset manager for the Fund.

Home to over 6 million people and more than 150,000 businesses, metro Atlanta continues to be an attractive place for Fortune 500 and 1000 companies because of the region’s low cost of doing business, ease of travel around the world through Hartsfield-Jackson Atlanta International Airport, a thriving innovative ecosystem, a business-friendly environment and its reputation as a logistics hub.

Located in one of the highest rent growth submarkets in Atlanta, The Tara Hill presents a unique value-add opportunity in Jonesboro. The 132-unit community is located minutes away from Hartsfield-Jackson International Airport, I-285, and Atlanta’s central business district. The properties are close to the Fort Gillem LogisticsCenter, Clayton State University and The North American Porsche Headquarters.

In addition to pushing rents closer to market, Tara Hill provides an opportunity to improve the operational performance of the property. The current owner self manages the property from California with no other presence in the market. While the property is well maintained, operations are suffering. This is evident in the fact that the property is 84% occupied when its peers are over 96%, despite having over 200 yards of frontage on heavily trafficked Tara Blvd (~62,000 VPD). Simple foliage trimming and better and more visible signage will drive traffic to the community and push occupancy. In addition, there are currently 16 non-paying residents. A review of the lease files shows that current management has been lax in their qualifying criteria. A more seasoned onsite Property Manager with better oversight should be able to improve collection efforts. Lastly, by improving operational efficiencies, we’re projecting a reduction in controllable operating expenses by 11.4%.

Unit Upgrades

Current ownership has spent considerable capital on the exterior of the property with roofs, windows, pool renovation and exterior painting all done within the last 6 years. This allows us to allocate the majority of our \$1.65M capital budget to enhance the interiors to compete with the newer communities in the market that are achieving considerably higher rents. Within one mile of Tara Hill are six competing properties with an average occupancy of 96.2%. Rents for these comps average \$1,327 for a one bedroom unit and \$1,460 for a two bedroom unit. Our conservatively underwritten rents post renovations are \$925 and \$1,225, respectively, allowing us to be the low cost leader in the market with comparable unit finishes and amenities. Our underwritten rents exceed the average in place rents by \$251 per unit, equating to \$397,188 in additional gross revenue per annum.

Proven Value Add Strategy

Sarmaya Green Program

Goal to have Net Zero Assets by 2030.

Future plans include solar panels on rooftops to allow for 10% reduction in energy cost to tenants as well as lease revenue for LPs as well as a renewable source of energy. The targets are summarized below.

Recycling program:

- Keep America Beautiful

Reduce water consumption by 25%:

- Low flow toilets
- Energy efficient dishwashers/washing machines

Reduce electricity consumption by 20%-40%:

- LED lighting
- HE appliances

Community Betterment

As the cornerstone of Sarmaya Capital Corp’s investment mandate, we believe Doing Well while Doing Good also increases the bottom line. With approximately \$100,000 initially budgeted for improvements to the playground, dog park, grilling area, and providing a new resident community and education center and leasing offices, we’re improving the day to day lives of the tenants, which is also expected to drive up occupancy rates and increase brand loyalty, as detailed below.

Community Betterment

with Sarmaya Capital

The cornerstone of Sarmaya Capital Corp.'s investment strategy is that of Community Betterment. This concept, of creating additional amenities, structures or services for the communities of people living in Sarmaya buildings, is based on the notion of doing well while doing good.

Clean, safe, well managed communities should not be a privilege, but a right and are not mutually exclusive to investor returns.

The Sarmaya Community Betterment platform is based on 6 key metrics:

Affordability

- Sarmaya Capital will not exceed **96% of current market rents** to keep units affordable.
- Internally audited and reviewed annually** to ensure Sarmaya stays within its mandate.

Charity

- 1.5% of NOI** will be allocated to local charities, food banks and community projects

Events

- Back to School BBQ** – a resident's BBQ at the end of the summer to introduce the Backpack Program annually
- Christmas Meal Program**

Amenities

- Pool** and pool areas (where applicable) are renovated and made safe for use
- Playgrounds** are built, cleaned, and made safe for use
- Grilling Stations** will be built and made accessible for all tenants to use
- Computer Stations** - See below
- Dog Parks**

Education

- Up to 1/3 of Leasing Offices will be dedicated "**Education Zones**" with computer stations and work areas focusing on allowing youth residents to use them for educational purposes
- 1.5% of NOI will be allocated to an annual **Residents Scholarship Program**. Residents will be able to apply annually for a scholarship to fund Post-secondary Education
- Backpack Program** – at the beginning of every school year, residents enrolled in school (K-12) will be provided with Backpacks and school supplies

Safety

- Gates** will be installed at property entrance
- Security Cameras** are installed on the properties
- Security Lighting** is installed on the properties
- On-site Security** will begin all rehabilitation projects, followed by a **Community Police Unit** – 1 unit will be provided at no cost to a member of the local police where possible and desired by local City Hall

The Tara Hill apartments were built in 1972 and represent an opportunity for to acquire an attractive all brick community in a thriving submarket at a basis well below replacement cost. The property is situated on just under 13 acres and has spacious one- and two-bedroom floor plans.

Asset Summary

Some of the improvements include new roofs (2015), new windows (2015), freshly painted exteriors (2018), low flow toilets, playground, updated leasing office, extensive pool remodel (2017), new signage, and 65 renovated units. Located directly off Tara Boulevard (62,000+ cars per day) and approximately three miles south of the I-75/Tara Blvd interchange, Tara Hill offers its residents convenient access to major area employment centers, retail, and lifestyle offerings. Across the street from Tara Hill Apartments is the only Kroger in the immediate area, and a MARTA bus stop is located directly in front of the property. Clayton County is seeing strong job growth with an unemployment rate below the national average and a 2.9% increase in job growth. Within a 10-mile radius of Tara Hill Apartments, the top sixteen employers have over 123,000 employees.

The opportunity at Tara Hill is twofold. Sarmaya will improve management inefficiencies, collections, and occupancy. Tara Hill apartments have trailed the average occupancy in the region by approximately 10% due to the current ownership attempting to self-manage out of California. Sarmaya will be buying this asset with occupancy hovering in the mid-80's with the current average in the area at mid-90's. Tara Hill's rent trails its peer group by 30%, or \$235 for a one bedroom and \$269 for a 2 bedroom. We see a tremendous opportunity to implement our community betterment program and push rents. Combining the organic rent increase and the rent increase with cosmetic improvements can potentially increase the gross income by \$400,000. Where washer/dryer connections exist in units an investor could increase rents with washer & dryers for an additional \$50/month. The Tara Hill apartment complex is the perfect stabilized value-add investment that is well below market rents with tremendous upside.

The Tara Hill is an opportunity for Sarmaya Capital and its investors to enter the thriving Jonesboro submarket. Jonesboro has grown to become a vibrant commercial hub, offering visitors convenient access to shopping, dining, and entertainment venues, as well as excellent access to nearby Atlanta Hartsfield-Jackson International Airport. Getting around Jonesboro is easy and convenient, as the area's transportation infrastructure includes access to Interstates 75, 85, 285 and 675. Jonesboro is located only five miles south of Atlanta's Hartsfield-Jackson International Airport, one the nation's busiest airports, with an economic impact of more than \$50 billion. Jonesboro's largest employers include Clayton State University, Delta Air Lines, Fresh Express, J.C. Penny Co., The U.S. Army at Fort Gillem and Southern Regional Medical Center.

A 20 year, \$6 Billion expansion of Atlanta's greatest asset – the world's busiest and most efficient airport

Aerotropolis Atlanta

Transformation of the surrounding airport area into a work-class model for people to live, work and play.

Created in 2014, the Aerotropolis Atlanta Alliance is a public-private partnership working to improve the regional economic competitiveness of the area around metro Atlanta's greatest asset – the world's busiest and most efficient airport. As a major driver of the State's economy, [Hartsfield-Jackson Atlanta International Airport \(ATL\)](#) generates over \$50 billion economic impact for metro Atlanta and provides more than 63,000 jobs on-site, making it the State's largest employer.

Gillem Logistic Center

The Tara Hill properties are less than 9 miles from the Fort Gillem redevelopment. Fort Gillem was an Army Military base founded in 1941, that was selected by the BRAC Commission for closure in 2005. The 1,168-acre site was purchased by the city of Jonesboro that can accommodate over 8 million square feet of industrial space and one-half million square feet of mixed-use buildings. The Local Redevelopment Authority finished Phase 1 of a three phase development plan estimated for completion in approximately 10 years. In addition to construction jobs, the business park is estimated to facilitate 3,000 to 4,000 jobs. The Southern Crescent of Atlanta continues to draw major investment illustrated by the recent opening of the Porsche North America headquarters in Hapeville and the return of MARTA to Clayton County.

Clayton State University

Tara Hill Apartments are in close proximity to Clayton State University. Founded in 1969, Clayton State has just over 7,000 students enrolled and employs roughly 300 full time faculty. Given the steadily growing student body the property is ideally situated to appeal to students and faculty. The campus is set on 163 acres and while it offers some student housing, a majority of the students live off campus. Currently only 14% of the students live in college owned housing and 84% percent live off campus. There are high barriers to entry for new development and minimal student furnished "rent by the bedroom" housing facilities in the vicinity of the school.

Atlanta, Georgia

Atlanta grew by 67,398 for a 1.1% expansion which is three times the US average of .4%

Metro Atlanta's unemployment rate stands at 4%, outperforming the national average by 180 basis points

Atlanta is home to 15 Fortune 500 companies including; The Home Depot, Coca-Cola, and Turner Broadcasting Systems

Due to the more than 30 colleges and universities located in the city, Atlanta is considered a centre for higher education

Location Summary

Hartsfield-Jackson Atlanta International Airport

The northern part of Clayton County is dominated by Hartsfield- Jackson Atlanta International, the world's busiest passenger airport (110 million passengers in 2019). More than 64,000 people are employed by various entities on its 4,700-acre campus, making it Georgia's largest employment hub. Its annual national economic impact in 2020 was estimated at \$82 billion. "Hartsfield" recently completed a \$9 billion

expansion of its passenger and cargo capacity. This five-year project added a \$1.5 billion international terminal, North America's tallest control tower, and a 9,000-foot fifth runway, among many other upgrades. A new \$6 billion master plan calls for a sixth runway, new parking decks, and new or renovated terminals and concourses. Delta Airlines is headquartered near the airport, its primary

hub, and employs 30,000+ Atlantans. In 2008, the merger of Delta with Northwest created the one of the world's largest airlines. Other prominent employers near the airport include a major FedEx air cargo hub, Wells Fargo's Operations Center, the Georgia International Convention Center, and large facilities for Sysco Food Services and Coca-Cola Bottling.

Industrial Powerhouse

The large number of industrial and commercial parks located near the airport and/or interstates are major economic drivers for the south side. In south Fulton County near Hartsfield Airport, Majestic Airport Centre III is a 600-acre industrial park that distribution centres for Costco, Kellogg's, General Electric, Newell Rubbermaid, Del Monte, and Caterpillar. The nearby Majestic Airport Centre IV is anchored by a 1.2 million SF Walmart distribution centre.

In southwest Fulton County, the Fulton Industrial District is the largest industrial corridor in the eastern United States. Stretching for nine miles along Fulton Industrial Boulevard near Interstate 20, the district boasts 48 million SF of warehouse space, 522 industrial buildings, 20,000 workers and close to \$1 billion in payroll. First developed in the 1960s, this area attracts industry due to its ease of access and close proximity to I-20, I-285, downtown Atlanta, two intermodal rail yards, and Hartsfield Airport's cargo facilities.

The Team

The principals of Sarmaya are experienced in the execution of a "bought right" and financed correctly approach which leads to:

- » Return of Initial Capital
- » Maintain Equity in Each of the Properties
- » Enjoy the Free Cashflow Produced by the Properties
- » Improve the Properties and thereby Increasing the Value of the Investments and Bettering their Tenants' Lives

With the Head Office in Vancouver, BC and an office in Atlanta, GA, Sarmaya Capital Corp. is comprised of a team of experienced managers and operators. The team has transacted over \$50,000,000 in Multifamily Real Estate Deals in the last year, with the latest deal generating an ROI of over 24% for investors.

Assumptions

Material factors or assumptions that were applied in drawing a conclusion or making an estimate set out in the forward- looking statements and financial outlook contained herein include that: building upgrade plans and related expenses will proceed as anticipated; the Fund will remain in good standing with respect to its obligations to any senior lenders; the general economy is stable; local real estate conditions are stable; interest rates are relatively stable; equity and debt markets continue to provide access to capital; and that the Fund’s expenses will not be materially greater than anticipated. These factors and assumptions should be considered carefully by readers. Readers are cautioned not to place undue reliance on the forward-looking statements or financial outlook or the assumptions on which the forward-looking statements and financial outlook are based on. Investors are further cautioned that the foregoing list of factors and assumptions is not exhaustive. In addition, information regarding targeted returns is based on the following principles and assumptions: the Fund will maintain a consistent level of cash flow and indebtedness and will not materially incur additional indebtedness, other than with respect to ordinary operating costs or as disclosed herein; the consumer price index, property taxes, operating expense growth, and market rent growth will be as anticipated; existing tenants will fulfil their current contractual lease obligations and remain in occupancy and pay rent for the term of their leases; upon expiry of their leases, the number of retained tenants will meet historical retention experience; and the Fund will maintain cash reserves as anticipated.

Other assumptions used by Sarmaya Capital Corp to model the costs and create the worksheets laid out in this document include:

70% of the purchase price for the initial acquisition of the Property is financed by way of debt

5.75% financing rate for first 2 full calendar years followed by 3.15% thereafter

“Reserves” to be redistributed as Return on Capital

Occupancy remains at an average of 94% per year upon stabilization

Asset value at time of refinancing is at least \$18,589,685 USD

Risk Factors

THERE ARE RISKS INVOLVED IN AN INVESTMENT IN THE UNITS AND THE SUBSCRIBER MAY LOSE HIS, HER OR ITS ENTIRE INVESTMENT.

Investment in the Fund involves a high degree of risk and is suitable only for sophisticated investors who can withstand the loss of their entire investment and requires the financial ability and willingness to accept the high risks and lack of liquidity inherent in an investment in the Fund. No assurance, representation or warranty can be given that the Fund’s investment objectives will be achieved or that investors will receive a return of their capital.

An investment in Fund Units is subject to risk. Standard risks applicable to investments of this nature include:

No market for Fund Units: There is currently no resale market for the Fund Units and it is not guaranteed that any market will develop. The Fund Units are not transferable without the approval of the General Partner of the Canadian Fund or the General Partner of the US Fund, as applicable, and in compliance with applicable securities laws and regulations.

There are inherent risks with real estate investments: Equity investments in real estate assets are subject to various inherent risks including, but not limited to, the burdens of ownership of real property, general and local economic conditions, adverse local market conditions, the financial condition of tenants, changes in building, environmental, zoning and other laws, changes in real property tax rates and/or assessed values, change in interest rates and the availability of debt financing, changes in operating costs, negative developments in the local, national or global economy, risks due to dependence on cash flow, environmental liabilities, uninsured casualties, unavailability or increased costs of certain types of insurance coverage, inflation, increases in energy costs, in ability to attract and retain tenants, acts of God, acts of war, hostilities, terrorist acts, strikes and other factors that are beyond the control of the Fund, the General Partners and the Manager.

The Fund has yet to obtain the Property: The Property has not yet been acquired by the Fund. The purchase and sale agreement under which the Fund expects to acquire the property is subject to the satisfaction or waiver of a number of conditions precedent, some of which are beyond the control of the Fund, the General Partner and the Manager. There can be no assurance that the Fund will acquire the Property.

The Fund has yet to obtain the debt and equity financing that it requires to acquire Property: The pro forma financial information provided in this document assumes that 85% of the purchase price for the initial acquisition of the Property is financed by way of acquisition loan. There can be no assurance that the Fund will obtain an acquisition loan or, if obtained, that it will be obtained on favourable or currently projected terms. In addition, there are currently no binding commitments or agreements with third parties to invest in equity to provide the remainder of the funds required for the acquisition. Further, the Fund intends to significantly leverage the Property. This leverage may subject the Property to various operating covenants and no assurance can be given that these covenants will be met or that they will not limit the Fund’s flexibility to respond to changing business and economic conditions. In addition, leverage will increase the Fund’s exposure to adverse economic downturns or deteriorations in the condition of the Property or its market. If a default occurs under the debt financing, investors may lose their entire investment.

Vacancy Rates: The apartment building business relies on a steady supply of good quality tenants. A shortage of quality tenants due to an economic downturn or job losses in a given marketplace could result in higher than expected vacancy and lower than expected revenue.

No guaranteed return: The projected returns described in this Investment Summary are not guaranteed. An investment in Fund Units is not suitable for investors who cannot afford to assume significant risks in connection with their investments.

Lack of Diversification: The Fund will be a single portfolio investment.

Competition: The Property will compete with surrounding residential rental properties. The competitive properties may reduce demand for the Property and adversely affect the Fund’s business and financial results.

Insurance: The Fund’s insurance coverage may not be adequate to cover all possible losses the Fund could suffer. The Fund will attempt to maintain insurance coverage in respect of the property against liability to third parties and property damage as is customary for similarly situated properties. However, there can be no assurance that insurance will be available or sufficient to cover any or all such risks. Insurance against certain risks may be unavailable or available only at a very high costs, available in amounts that are less than the full market value or replacement cost of the Property or subject to a large deductible. In addition, inflation, changes in building costs and ordinances, environmental consideration and other factors may also make it infeasible to use insurance proceeds to replacement the improvements at the Property if they are damaged or destroyed.

Tax matters: Prospective investors are not to construe the contents of this document as investment, financial, business, legal, regulatory, accounting, tax or other advice. Prospective investors should make their own investigation of the merits and risks of an investment in the Fund. The General Partners and the Manager also strongly recommend that each prospective investor consult its own advisors as to legal, business, tax, accounting and other related matters concerning an investment in the Fund.

Reliance on key personnel of the Manager: The success of the Fund is largely dependent upon the continued efforts of certain key personnel of the Manager. The unexpected loss or departure of any of the key personnel of the Manager could adversely affect the Fund and the Property.

Ownership Structure: Each of the Canadian Fund and the US Fund intends to acquire and own units in the Property Partnership, pro rata based on the percentage of funds contributed by Canadian investors and US investors, respectively. . In the event of a refinancing of the property, the Partners will be entitled to participate in the net proceeds of the refinancing on a pari passu basis.

Investors are advised to review the limited partnership agreement and the subscription agreements for the Canadian Fund or the US Fund, as applicable, carefully.
